

End-of-Life Notification

End-of-Life Notification for L SCAN 1000P

This announcement serves as notification for the scheduled End-of-Life of the L SCAN 1000P, which is being replaced by the introduction of the L SCAN 1000PX device. Keeping with our commitment to continuous improvement and innovation, the L SCAN 1000PX is the industry's fastest and smallest 1000ppi palm scanner.

Regular production of the L SCAN 1000P devices will cease on **December 31, 2011**. However, Cross Match Technologies will guarantee both hardware and software service and support through **December 31, 2016**, or in accordance with your specific contract terms.

Cross Match is accepting final End-of-Life orders until **October 31, 2011**. Please contact your Cross Match Sales Manager should this conflict with any outstanding offers/tenders for the L SCAN 1000P you may be currently pursuing or supporting.

End-of-Life Milestones for L SCAN 1000P	Effective Date
Final Order Date	October 31, 2011
Cessation of Production	December 31, 2011
End of Service/Support	December 31, 2016
End-of-Life	December 31, 2016

Cross Match Technologies is committed to assisting our valued customers during this transition period. Like its predecessor, the new LSCAN 1000PX is also supported by the L SCAN Essentials SDK. Should you have any questions about transitioning, our sales and software teams would be glad to assist you with the integration of the new L SCAN 1000PX features.
