Dear Mr. Morgeneier:

The Federal Bureau of Investigation (FBI) Criminal Justice Information Services (CJIS) Division has completed a review of the following test data:

Submitting Vendor	Equipment
Cross Match Technologies, GmbH	LSCAN 500P fingerprint/palmprint and Identification Flats livescan device at 500 ppi, with and without membrane (Appendix F).

This review was conducted by representatives of the FBI and the MITRE Corporation's image processing laboratory located in Bedford, Massachusetts. Based on the results of this review, the FBI certifies that the equipment described above is in compliance with the following FBI CJIS Division's Integrated Automated Fingerprint Identification System Image Quality Specifications (IQS):

Appendix F Specifications

Please note, the certification process does not endorse one product over any other product and only demonstrates that the product meets FBI standards. Continued acceptance of the images created by an installed system, for retention in the FBI Master Fingerprint files, is contingent on the ability of the product to meet the IQS over time. As equipment can degrade, the FBI recommends that your company assist customers in the establishment of quality assurance programs and appropriate maintenance schedules for your products.

Please direct any questions regarding this certification to Mr. Thomas E. Hopper at (202) 324-3506.

Sincerely yours,

Thomas J. Browne
 Acting Deputy Assistant Director
 Policy, Administrative and Liaison Branch
